A summary of your data protection rights

How can you request information about the management of your personal data?

Upon your request, the Data Controller provides information about your data managed by the Data Controller or processed by the Data Controller (or a data processor commissioned by the Data Controller). Thus, about their source, the purpose, legal basis, and duration of the data processing, the name and address of the data processor and its activities related to data processing, the circumstances, effects of the data protection incident and the measures taken to prevent it, and - in the case of transmission of the personal data of the data subject - the legal basis and recipient of the data transmission. The Data Controller will fulfill its tasks for providing information within 30 days of receiving your request.

The request for information sent by letter is considered authentic by the Data Controller if the user can be clearly identified based on the sent request. The Data Controller considers a request for information sent by e-mail as authentic only if it is sent from the user's e-mail address, but this does not preclude the Data Controller from identifying the user in other ways before providing the information. In order to fulfill the request, the Data Controller is obliged to make sure that the person entitled to do so wishes to enforce the data subject's rights. For this - in justified cases - it may also be necessary for the data subject to appear in person at the headquarters of the Data Controller for the purpose of personal identification.

When can you request correction of your data?

If you or the Data Controller notices that the personal data it manages is inaccurate, incorrect or otherwise inadequate, either at your request or as a result of the Data Controller's own action, the Data Controller will correct the incomplete or incorrect data.

When do you have the right to have your personal data deleted?

You can request the permanent and irretrievable deletion of your personal data at any time if your data is processed by the Data Controller based on your consent. In the case of data processing for the legitimate interests of the Data Controller or you, as well as for the fulfillment of mandatory legal storage and preservation obligations, the Data Controller cannot delete your data. The Data Controller deletes personal data at the same time as the purpose of data management ceases. The Data Controller also deletes the data if it is proven that the processing of the data is illegal for some reason, or if its deletion is legally ordered by an authority or a court.

When do we need to lock your personal data?

At any time, you can request that the data processing be restricted for certain parts of the data you have provided to the Data Controller, or for all data. In the event of a request for data deletion, the Data Controller will not delete but block the data if data deletion would harm your legitimate interests. The Data Controller only manages the locked data as long as the purpose that caused the blocking exists, after which the locked data will also be deleted.

How can you withdraw your consent to the processing of your personal data?

You have the right to withdraw your consent to the processing of your personal data at any time. The Data Controller considers the withdrawal of consent sent by letter to be authentic

if the user can be clearly identified based on the sent request. Withdrawal of consent sent by e-mail is considered authentic by the Data Controller only if it is sent from the user's e-mail address, but this does not preclude the Data Controller from identifying the user in other ways before providing the information.

Where can you go with your complaint?

You have the right to submit your complaint about data management to Transfer and More FZ Limited Liability Company.

Telephone number: +971 54 472 6682
Mobile: +36/30 309 4834

How can you go to court if we have violated your rights?

You have the right to go to court in connection with data management. The Court is competent for the lawsuit, and you can submit your claim against the Data Controller to the court of your place of residence. The court will consider your request in an extraordinary procedure.

How do we get your personal data?

You provide your personal data to the Data Controller. If the data did not come from you, the Data Controller will immediately delete the document illegally submitted to the Data Controller, along with its entire data content, upon your request.

What do we do to keep your personal data secure?

The Data Controller tries to guarantee the security of the data in the manner expected of it and with the technical means at its disposal, and takes all necessary steps to this end, including strictly limiting access to the data.
